Project

•Sentiment Analysis of Movie Review

The project titled “**Sentiment Analysis of Movie Review**” is basically Sentiment analysis is the analysis of emotions and opinions from any form of text. Here we have analyzed movie reviews using Natural Language Processing techniques and classify the sentiment expressed in those reviews. In this project, we focus on movie reviews as they contain a variety of sentiment..

The main objective of this project is to we will analyze using various metrics, providing insights into its accuracy and potential applications in understanding audience reaction.

- This project has made for MCA Minor project with 4 members in a group.
- *Used Tech:* Machine learning ,Python, Google Colab
